

ILM ACCREDITED PROGRAMMES

Our **Aspiring Future Public Sector Leaders** programme has been running successfully for three years now, and we constantly review and update it to ensure the content is informed by the changing requirements of public sector managers and leaders. Attendance and participation in the workshops attracts an ILM development award whilst successful completion of a parallel and aligned programme of work-based assessment can lead to an ILM Level 5 Certificate in Leadership and Management.

Through our delivery partners, we can also provide tailored executive development programmes in strategic leadership and executive management at ILM Level 7. These are ideally suited for local authority and public sector senior teams looking for a combination of face-to-face or blended delivery with post-graduate level accreditation.

ILM Level 7 in Strategic Leadership and Executive Management

For individual executive and senior managers we work through our partners to offer programmes of executive coaching leading to ILM Level 7 Certification. These programmes feature individual coaching, via Skype or telephone, for participants as they progress, over a period of up to a year. Learners work through a series of themes, each of which looks at important strategic aspects of the organisation, supported by coaching and a range of materials drawn from CMI and ILM and delivered virtually. They complete a reflective review

assignment, in which they analyse strategic aspects of their organisation and identify plans to deal with issues identified. They then submit a report on these activities, which forms the basis of the assessment, and receive feedback, which forms part of their development as well as the assessment against the qualification.

Participants can also take advantage of network forms available through the programme website. This enables them to interact with other students from other parts of the country and the world who are active on programmes.

ILM Level 5 Certificate in Leadership and Management

We can offer this as part of a blended management development programme or on a one-to-one basis through guided learning and individual assessment.
