

SOLACENet

SOLACENet - can you afford not to be a member ?

The Society of Local Authority Chief Executives & Senior Managers has launched an exciting new programme for aspiring managers in the public sector. SOLACENet, the SOLACE management network, was put together with a group of leading managers from the public sector and has five distinctive elements ...

The **5** elements are:

■ **Inside Communications**

A regular briefing and an online e-magazine containing information specifically gathered for its use in corporate management awareness or development.

■ **Master Classes**

One-day intensive clinics with serving Chief Executives or ideas leaders from within the sector. Initially in London but moving out to the regions as members pinpoint the most accessible locations

■ **Shadowing Opportunities**

Joining people together, through access to information, matching of expertise, regional meetings and requests for assistance. Shadowing can be as little as an email every month through to regular face to face job shadowing. As the programme grows we will look at cross membership shadowing between SOLACENet, Senior Manager and Chief Executive Members.

■ **SOLACENet Annual Conference**

A one day conference, priced at £199, designed in partnership with members of the programme and featuring senior public sector speakers and opportunities to network with key figures and colleagues.

■ **Managed Networks**

Using the very successful information channels established already within SOLACE we will be offering a service to connect members together to solve issues. These networks will be email or meeting networks.
